PROFESSIONAL SUMMARY

Principal Solution Architect and member of the Board of Directors at GeoDataTek, with 10+ years delivering ERP architecture, implementation, modernization, and enterprise integrations on the Microsoft Dynamics platform. Deep specialization in Dynamics 365 Business Central and Dynamics NAV, covering AL/C-AL development, AppSource-certified extensions, cloud and on-premises upgrades, and API/EDI integrations. Leads the architecture of the Business Central to Dynamics 365 Finance & Operations transition, the Azure integration landscape around it, and the company's AI initiatives, including an AI-driven functional testing platform for D365 and a self-hosted customer support assistant.

International exposure: 3 years onsite in Muscat, Oman, plus onsite delivery in the United States (B1 visa valid).

CORE SKILLS

Dynamics 365 Business Central | Dynamics 365 Finance & Operations | Dynamics NAV | AL / C-AL | Microsoft AppSource | ERP Architecture & Implementation | BC / F&O Integrations | Azure Service Bus & Logic Apps | REST APIs | Business Events | EDI | Azure DevOps & CI/CD | Power Platform | Power BI | AI Agents (Claude, MCP, Copilot Studio) | Cloud & On-Premises Migrations | Data Migration | Process Automation | Stakeholder Management | Technical Leadership

PROFESSIONAL EXPERIENCE

Principal Solution Architect | Board of Directors
Oct 2026 - Present

GeoDataTek India Pvt Ltd, Chennai, India

- Serve on GeoDataTek's Board of Directors while leading solution architecture across Dynamics 365 Business Central, Finance & Operations, and Azure integration.
- Own the architecture for the Business Central to D365 Finance & Operations transition, including Power BI-driven inventory valuation and opening-balance reconciliation for migration.
- Lead AI initiatives: an AI-driven functional testing platform for D365 (D365 Sentinel), a zero-token-cost self-hosted customer support assistant, and document-extraction agents built in Copilot Studio.
- Design Azure integration pipelines (Service Bus, Logic Apps Standard, ARM templates) connecting D365 F&O to external product-information platforms.
- Lead a cross-functional team of ERP, web application, and UI/UX engineers.

Technical Solutions Architect
Oct 2024 - Sep 2026

GeoDataTek India Pvt Ltd, Chennai, India

- Led architecture and delivery of ERP, integration, and modernization solutions across manufacturing, retail, and logistics.
- Owned the Business Central to F&O technical transition and integration landscape, covering APIs, business events, Azure services, and data flows through to production readiness.
- Designed, developed, and published Business Central apps on Microsoft AppSource, strengthening reusable product capabilities and Microsoft ecosystem compliance.
- Provided technical leadership across solution design, estimation, release governance, and mentoring of development teams.

ERP / EDI Tech Lead
Oct 2021 - Sep 2024

GeoDataTek India Pvt Ltd, Chennai, India

- Designed scalable Business Central frameworks for enterprise-grade performance, extensibility, and maintainability.
- Architected integrations between Business Central and Flexport, Lanham, Aptean EDI, SimCrest, and ChargeLogic.
- Directed NAV and Business Central upgrade and migration programs to SaaS and modern on-premises versions with minimal downtime and full data integrity.

Technical Consultant
Oct 2020 - Sep 2021

Solia Technology Services, Chennai, India

- Delivered end-to-end Business Central cloud implementations and multinational deployments.
- Built AL customizations, RDLC/Word reports, and external-system integrations that automated order and finance processes.

Technical Consultant
Dec 2015 - Sep 2020

Jean Martin Systems Pvt Ltd, Chennai, India

- Developed and maintained Microsoft Dynamics NAV and Business Central solutions across versions 2009 to 2018.
- Led module upgrades, data migrations, performance optimization, and custom manufacturing/HR solution delivery.

SELECTED PROJECTS

D365 Sentinel: AI-Driven Functional Testing Platform 2026 - Present

- Architected an automated functional testing platform for D365 F&O and Business Central, with Claude orchestrating tests via MCP, Chrome DevTools MCP, and Python/Playwright.
- Modelled coverage from a real 63-case order-to-cash UAT tracker; specified a 28-skill Claude library and five architecture documents (.NET 9, React, Azure DevOps, Docker).

Zero-Token-Cost AI Customer Support Assistant 2026 - Present

- Designing a self-hosted, open-source LLM support assistant that answers order-status and stock questions from Business Central-replicated SQL data.
- Defined OWASP LLM Top 10 guardrails, PII redaction, and an evaluation test bench benchmarked against a commercial chatbot.

D365 F&O to Salsify Product Data Pipeline 2026 - Present

- Designed an event-driven integration (D365 F&O, Azure Service Bus, Logic Apps Standard) publishing item data to Salsify; Phase 1 delivered as ARM templates with a Python test harness.

Inventory Analytics & Migration Reconciliation (Power BI) 2026 - Present

- Designed an ABC Inventory Analysis model for executives and rebuilt Business Central inventory valuation in Power BI to reconcile opening balances for the F&O load.

Customs Document Extraction Agent (Copilot Studio) 2026

- Built a Copilot Studio agent that extracts structured header and line-item tables from multi-document customs packets for Excel and ERP entry.

D365 F&O Implementation & ERP Migration Oct 2025 - Present

- Leading the technical implementation of Dynamics 365 Finance & Operations as part of the enterprise transition from Business Central.
- Own F&O customizations, integrations, business events, and deployment and DevOps coordination.

Business Central Upgrades & Cloud Migrations Jan 2025 - Present

- Engineered upgrades of Business Central 24.0 On-Premises to 25.6, and 21.6 to 24.0, with minimal downtime and full data integrity.
- Implemented Business Central 21.6 On-Premises and Business Central 26 Cloud across business units, and led NAV 2009 to 2015 modernization.

AppSource Development & CI/CD Feb 2025 - Aug 2025

- Designed and published Microsoft-certified Business Central extensions to AppSource.
- Implemented Azure DevOps CI/CD pipelines for AL extensions, automating build, validation, and deployment.

Enterprise Integrations & Process Automation Jan 2023 - Oct 2025

- Delivered API-driven integrations across CRM, WMS, e-commerce, and Flexport.
- Built EDI integrations (Aptean, Lanham) and automated Sales Order to Purchase Order, freight, and engraving workflows.

EDUCATION

M.E. in Computer Science & Engineering 2013 - 2015

Sengunthar College of Engineering, Anna University

- CGPA: 7.9 | Sports Scholarship recipient.

B.E. in Computer Science & Engineering 2008 - 2012

Sengunthar Engineering College, Anna University

- CGPA: 8.42 | Represented Anna University Basketball Team.
